

KPWA SERVICE LINE EXTENSION REQUEST

Kingfisher Public Works Authority

301 N Main St
Kingfisher, OK 73750
(405)375-3705
www.kingfisher.org

For new construction without current metered services, change of property use requiring service line changes, or expansion of existing services requiring a service line extension, the Kingfisher Public Works Authority (KPWA) will extend the service line to serve the property at actual project cost to the customer. The estimate for the cost of service extension shall be provided upon approval of the KPWA and acknowledgment of the property owner or developer prior to line extension construction beginning. Temporary service may be obtained while the line extension design is being planned, however permanent construction will not begin until the estimate has been presented and approved by property owner. The estimate is projected on current material and supply costs. Actual project costs may be higher or lower than the estimate.

Name of Property Owner: _____

Mailing Address: _____

Phone: (____) _____ - _____

Email: _____

Address of Property: _____
Kingfisher, OK 73750
