

The Citizen Collection Station is operated by the City of Kingfisher located on the east side of U.S. 81, immediately after the bridge over Kingfisher Creek. The Station has bins for solid waste, metal, lumber and recyclables and also receives green waste such as limbs, brush, grass and leaves. The facility is not a landfill nor a transfer station.

Per Oklahoma Department of Environmental Quality, the Citizen Collection Station is designed for residential solid waste only. It is not a replacement for curbside collection, but offers residents a location to bring occasional excess household waste that does not fit in curbside containers.

The facility is open Wednesday and Saturdays from 9:00 am to 1:00 pm and 2:00 pm to 6:00 pm. In Winter hours, the facility will close at dusk.

Credit card payment is the only form of payment accepted at the facility. Customers requesting curbside collection will have the fee added to their utility bill.

Fees for drop-off or curbside pickup are listed below:

CITY OF KINGFISHER COLLECTION CENTER	Drop off at site:	Curbside pick up:
	each	each

Hazardous waste to include: tires; shingles; appliances with freon; motor oil; paint; batteries; radioactive, highly flammable, explosive or toxic materials or liquids will not be accepted.

Oversized loads that will fill the containers and make them inaccessible for other residents will be denied.

Commercial customers, to include rental property owners and construction contractors, should contact City Hall at (405)375-3705 for a list of disposal service providers for on-site containers.

The City of Kingfisher reserves the right to refuse access to non-customers, oversized loads, or unauthorized debris.
